FRONTEND ENGINEER | SOFTWARE ENGINEER

I am a passionate Frontend Developer with expertise in React, JavaScript, TypeScript, and Next.js. Proficient in Git, I leverage Tailwind CSS for responsive design and implement APIs to enhance functionality.

I have experience with Redux and Redux Toolkit for state management, along with unit testing using Jest. My familiarity with CI/CD and DevOps practices comes from personal projects on GitHub and Vercel. I excel at translating Figma designs into functional applications.

Let's collaborate to create exceptional digital experiences!
